

TFL SUSTAINABILITY GUIDELINES FOR WORKSHOPS AND EVENTS

COMMITMENT & PRINCIPLES

At TorinoFilmLab we are committed to **continuous improvement in our sustainability practices.**

We encourage all partners and participants, staff and guests to join us in our efforts to create a more environmentally responsible film industry.

Reduce waste: minimise the generation of waste through responsible consumption and recycling

Conserve resources: efficiently use energy, water, and materials

Promote sustainable travel: encourage eco-friendly transportation options

Support local and sustainable suppliers: prioritise partnerships with businesses that share our environmental values

Calculate the impact of the workshop and create a strategy to reduce the CO₂ emissions

ACTIONS

Venue Selection

-  Prioritise venues with **strong environmental policies and certifications**
-  Select venues **accessible by public transportation**
-  Negotiate with venues to **minimise single-use plastics** and implement **recycling systems**
-  Choose a venue that allow you to **regulate heating and cooling systems**

Travel

-  Encourage participants to use **public transportation or carpooling**
-  Promote **train travel** for journeys under 6 hours
-  **Offset carbon emissions** for necessary air travel
-  **Minimise unnecessary travel**, and use online meetings when applicable

Catering

-  Offer mostly **vegetarian and vegan options**, limit the number of meat-based meals
-  Prioritise **locally sourced, seasonal food**
-  Prioritise **buffet** instead of served meals (a vegetarian buffet served with reusable tableware is the most sustainable option possible)
-  **Minimise food waste**
-  **Donate food** surpluses to no-profit organisations when possible

2 ACTIONS

Materials and Resources

-  **Minimise the use of printed materials**, opting for digital alternatives
-  Use **recycled and sustainable materials** whenever possible
-  **Eliminate unnecessary materials**, such as single-use badges

Accessibility

-  Ensure **accessibility and inclusiveness** of all participants
-  **Listen to and accommodate the needs** of all participants without any exclusion

Communication

-  **Communicate our green policy** to all participants and stakeholders
-  **Provide information** on local recycling and transportation options
-  Raise **awareness about sustainable film** production

MONITORING AND IMPROVEMENT

Collect feedback from participants on our sustainability efforts

Track our progress in reducing our environmental impact

Regularly **review and update our sustainability policies**

SUSTAINABLE
